Meilegem - Zwalm, 2009

Who's afraid of red?, 2009
ornitological cabin, metal structure, red plexi-glass
Nature reserve De Kaaihoeve - Meilegem

In front of an existing ornitological cabin, a metal structure of the same size as the cabin was build on.
The metal structure served as a closed veranda housing indoor subtropical plants through where the viewer could watch the
environmentally protected landscape.
